

ANTH 1500 Great Discoveries in Archaeology

Team Presentation

GUIDELINES

- The class will have 9 teams each comprised of 5 or 6 members.
- Each team will make a PowerPoint presentation on a topic related to the course material.
- The topics and dates of the presentations are listed on next page.
- Each topic is from a story featured by National Public Radio (NPR).
- Presentations should be 30-45 minutes in length.
- Following each presentation there will be approximately 15-30 minutes for discussion.

FORMAT

Part I – SUMMARY

- What are the main points about the archaeological discovery presented in the NPR story?

Part II – ONLINE RESEARCH

- What additional relevant information can you find about this archaeological discovery through online research which is not covered in the NPR story?

Part III – eHRAF ARCHAEOLOGY

- What additional data have you found in eHRAF Archaeology that relates to this tradition and/or subject? Comparative and cross-cultural analysis is strongly encouraged.

Part IV – TEXTBOOK SYNTHESIS

- How does this archaeological discovery connect to information, terminology, and concepts in your textbook?

Part V – QUESTIONS

- What additional questions do you think could be explored through further research?
- What questions do you have for your classmates which can lead to class discussion?
